I'll use a distribution list if it is better, but this is the only way I know to be certain I'm using the most up to date list. Except for the edge case you just described.

Oh I see what happened. I send all the invites to Maureen who then forwards to Gary (or whoever can make it from Cravath), so the email went to her, but not to him if that makes sense.

Yes. For clarity, I go to the Project Liberty meeting invite and hit send all with my note. If Gary didn't get the note, does that mean he wasn't on the meeting invitation list? I could swear he attended.
