Subject: Re: New iPad Pro with LiDAR scanner and ARKit 3.5

Hey Robert! The work to integrate the latest ARKit is well underway - I'll check in with the engineer working on that today to get an update but I imagine we'll have that integrated and in testing by the end of this week, ready for the 4.26 release later this year.

I'll let Sebastien answer on thoughts on the Lidar/enterprise side - I've had some general discussion with folks on that side but nothing concrete yet.

Seb and +Thomas Convard do you have any feedback for Robert ?
 Robert, what are the next steps to set up a briefing on WWDC ?

Thanks,

Julie

Hello,
 Checking in to see how things are going with ARKit 3.5 and if there are any use cases that emerged for the LiDAR scanner in enterprise or virtual sets.

We are ramping up for Virtual WWDC and I want to get UE in the best position for any opportunities that start to pop up :-)

Thanks,

- Rob

Hi Robert! Yes, we'd definitely be super interested. Nick and I both have openings at the following times over the next week or so (all times are Pacific Standard Time):

Thursday 3/26/2020, 2-3pm, 4-5pm

Friday 3/27/2020, 3-4pm

Monday 3/30/2020 3:30pm onwards

Tuesday 3/31/2020 2:30-3:30pm or 4-5pm.

Wednesday 4/1/2020 3-4pm

Thursday 4/2/2020 4-5pm

Friday 4/3/2020 4-5pm

Super excited to find out more - those devices look amazing. Let me know if any of those time slots work!

Steve

Hi Steve, Nick W,

Following up on our announcement of the new iPad Pro with LiDAR Scanner

<https://www.apple.com/ipad-pro/>

<https://www.instagram.com/p/B95cfpmHXvK/>

<https://developer.apple.com/augmented-reality/arkit/>

Would you like to get on the horn with some of the ARKit team to discuss in detail?

- Rob
