This PDF is shocking, lots in here.

- We need to think about how to stop this from happening
- We also need to quickly consider how to go about finding any of these scams that are live and figuring out how to take action

Subject: Scam in App Store

Dear Taru:

I am writing to alert you to a serious scam that an app developer is perpetrating through the Apple App Store. The attached slide deck describes how the app "Ringtones Z Premium: Music, Sound FX & Alarm Edge," and its sister apps in the "Holy Grail: Best Free App, Game, Bible & Horoscope" portfolio, are reaping in hundreds of thousands of dollars a month from unwitting consumers through fraudulent and misleading practices. The slide deck includes screen-shots that depict the deceptive practices. It also prints out dozens of complaints by users in reviews they have posted in the App Store.

I see that most of Holy Grail's apps, including the app referred above, had been taken out of the App Store by December 21st in recognition of the fraud, but the apps' users are still being charged on

their weekly subscription to this very day. It is likely that Holy Grail is still receiving several hundred thousand dollars every month from the scam in light of the apps' user base before they were taken down.

I assume that Apple would want to know about this situation so that it could stop the fraud and attempt to recoup the funds diverted by the fraudsters. Formal complaints have been filed on the problem but no real answer was achieved.

Please confirm that you have received this letter and that Apple is taking measures to stop the offending apps from billing users. If there is another person in Apple I should reach out to, please do advise. To allow this fraud to continue would be inexcusable.

Thank you for the attention.

Sincerely,

[REDACTED]

How to make \$500k/Month by scamming Apple App Store's users

Read this article: medium.com on how the same scam was taken down last June

A step-by-step guide on how “Holy Grail: Best Free App, Game, Bible & Horoscope” developed a sophisticated scam with “Ringtones Z Premium: Music, Sound FX & Alarm Edge”

Holy Grail's Ringtones App alone is making 350-400k/month

Daily Revenues Graph of Ringtones Z Premium

Ringtones (\$375k) + Bible (\$60k) + Wallpaper (\$40k) + Horoscope (\$9k) = **\$484k/month.**

Yes! We are in 2017 and someone is making 350-400k a month with ringtones!

A step-by-step guide to a \$500k/month scam:

Step 1. Identify things people search and get for free on the internet

Step 2. Never produce any of this content but instead get it for free on the internet

Step 3. Build a cheap, low quality app and add the free content

Step 4. Falsely advertise free stuff though Apple Search Ads

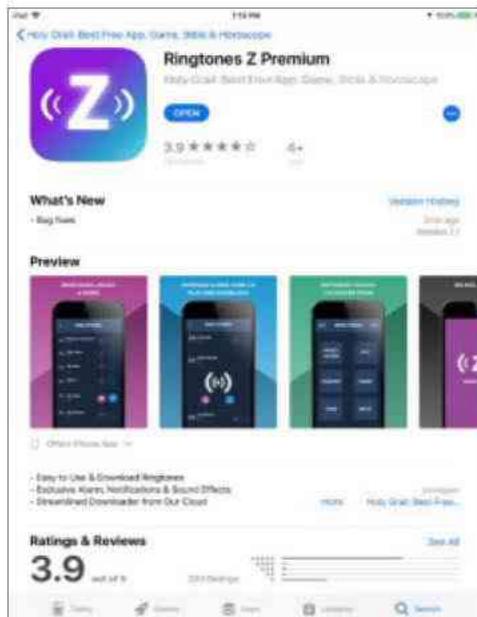

Step 5. Make thousands of users pay \$100s without knowing

Step 6. Scam user ratings so you don't get caught (breaking all of Apple's guidelines)

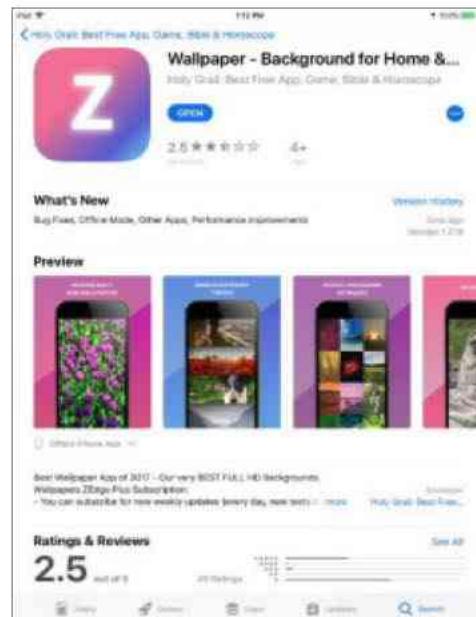

Step 1. Identify things people search and get for free in the Internet

App Portfolio of “Holy Grail: Best Free App”

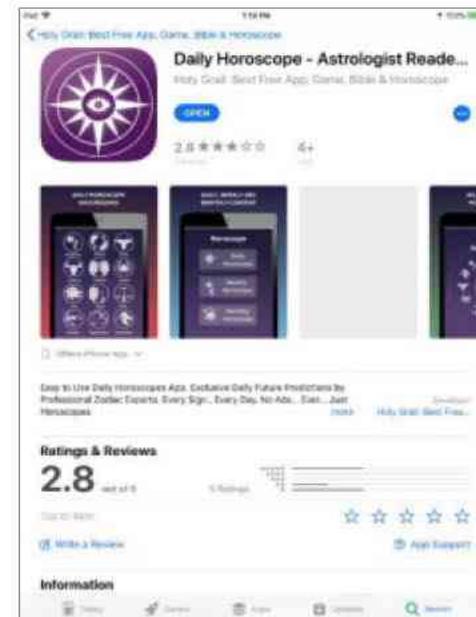

RINGTONES

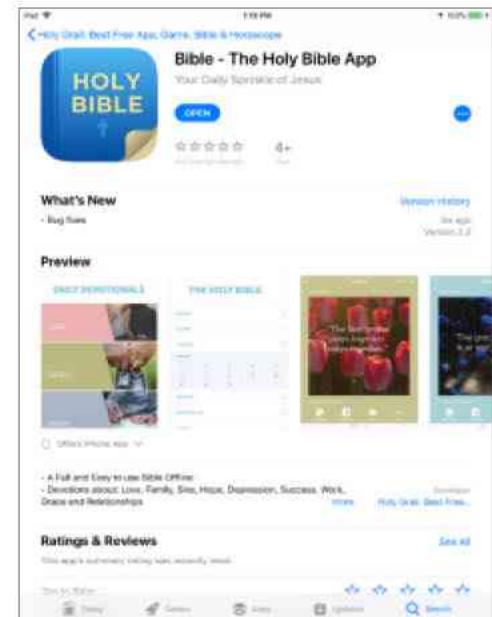

WALLPAPERS

HOROSCOPE

BIBLE

Step 2. Never produce any content – just get it for free on the internet

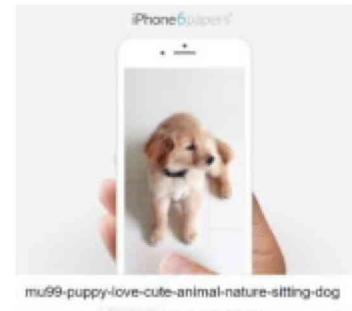

Holy Grail's Wallpaper charges \$40/month for low-quality images that are FREE and BETTER elsewhere

Actual images from the app
Stretched/distorted pictures
1536 x 2048

→ Search these images in Google Images →

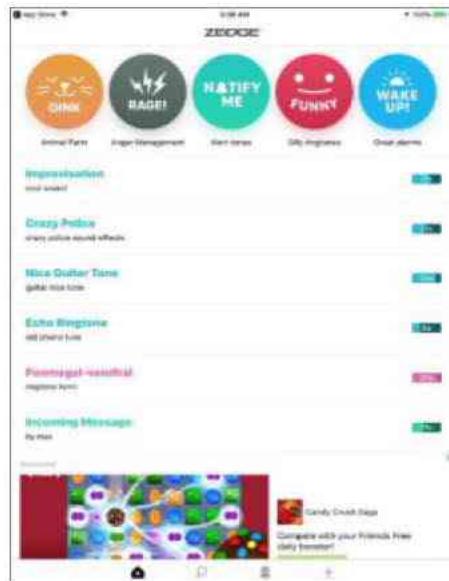

Better quality, 1242 x 2208
Free download

Step 3. Build a cheap, low quality app and add the free content

Holy Grail cloned free apps from the company Zedge

Zedge Ringtones

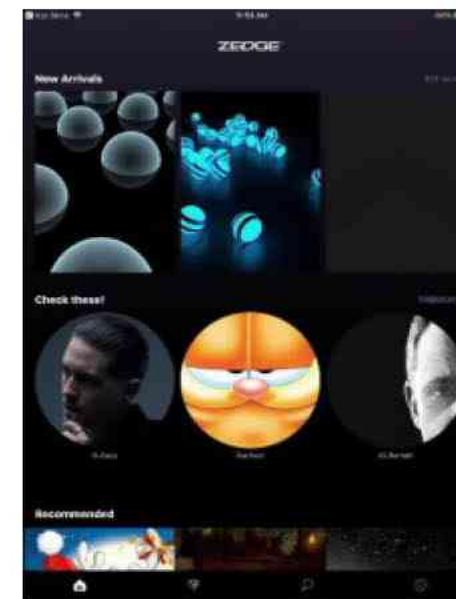

Completely FREE

Ringtones Z Premium: Music, Sound FX & Alarm Edge

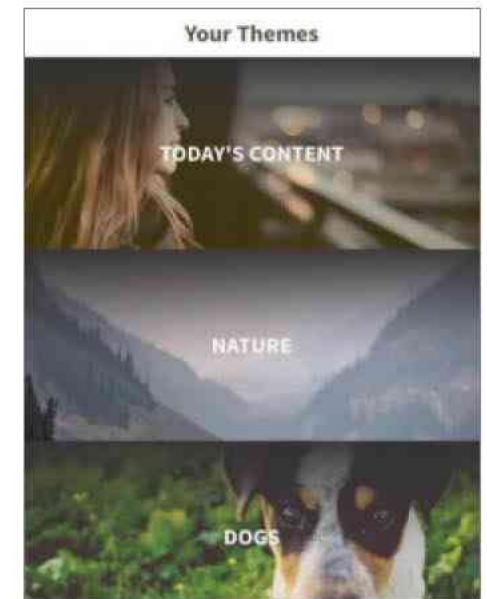

Charges \$40/month

Zedge Wallpapers

Completely FREE

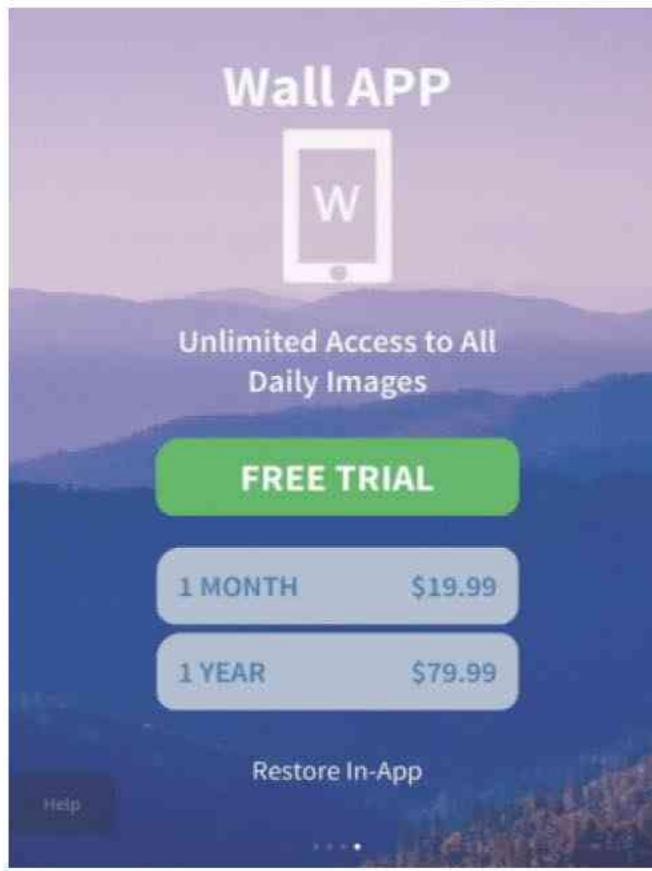

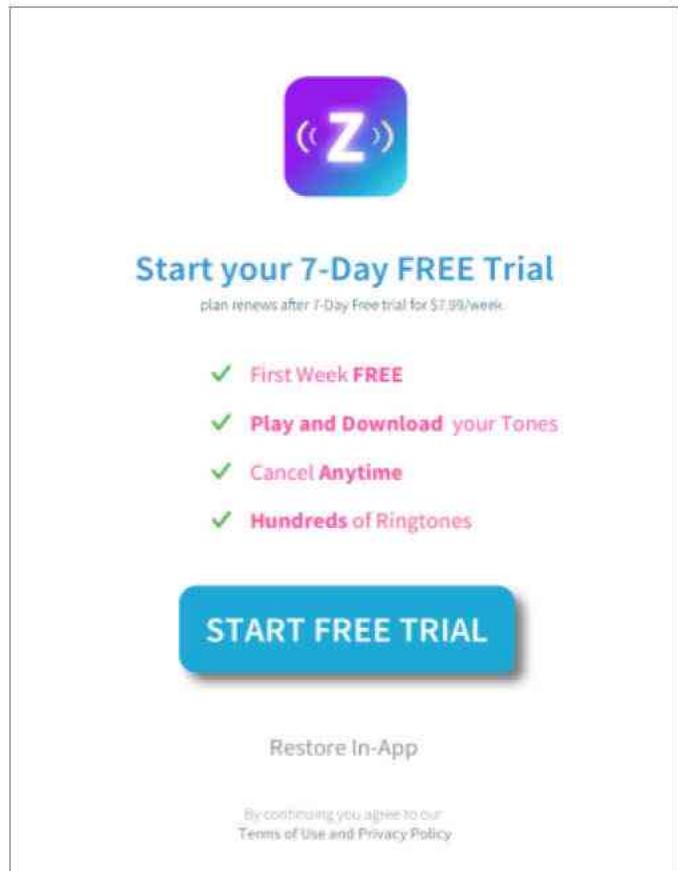

Wallpaper: Background for Home & Lock Screen Edge

Charges \$40/month

Force users to do a “free” trial before they can see your app

Users blocked by a paywall, no functionality available until after you subscribe

Never mention users are entering into an auto-renewable subscription

Hide how much you will charge

No need to deliver value to your users

Screenshots of the tutorial of the 8-step process to install a ringtone

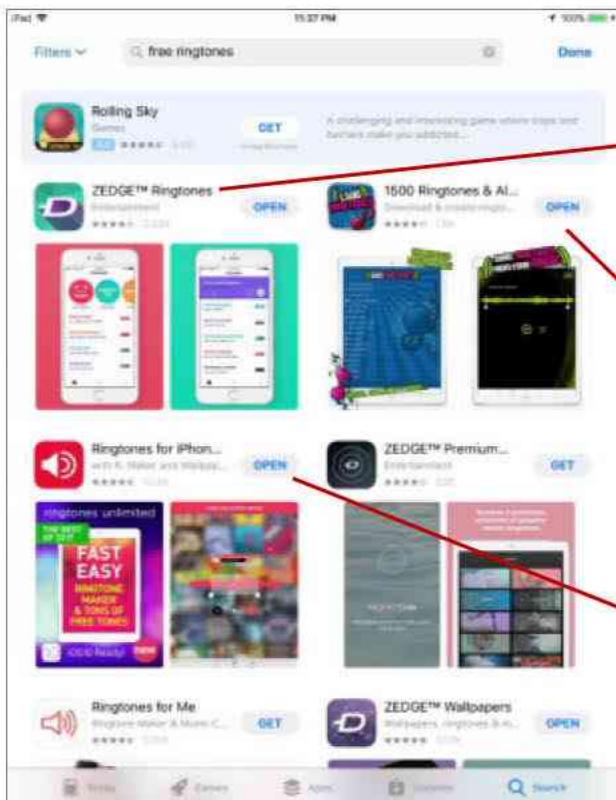

Ringtones Z Premium:

8-step process to install a ringtone that could have been installed in a much easier way, and for free, in the internet

Costs \$40 per month

It's irrational to pay \$40/month when you can get the exact same product for free

These products are rip-offs of apps that offer free content and better functionalities

Zedge Ringtones (the original)

Thousands of free ringtones
New content continually added
Totally free

1500 Ringtones & Alerts

Thousands of free ringtones and functions
Records and converts music to ringtones

Ringtones for iPhone!

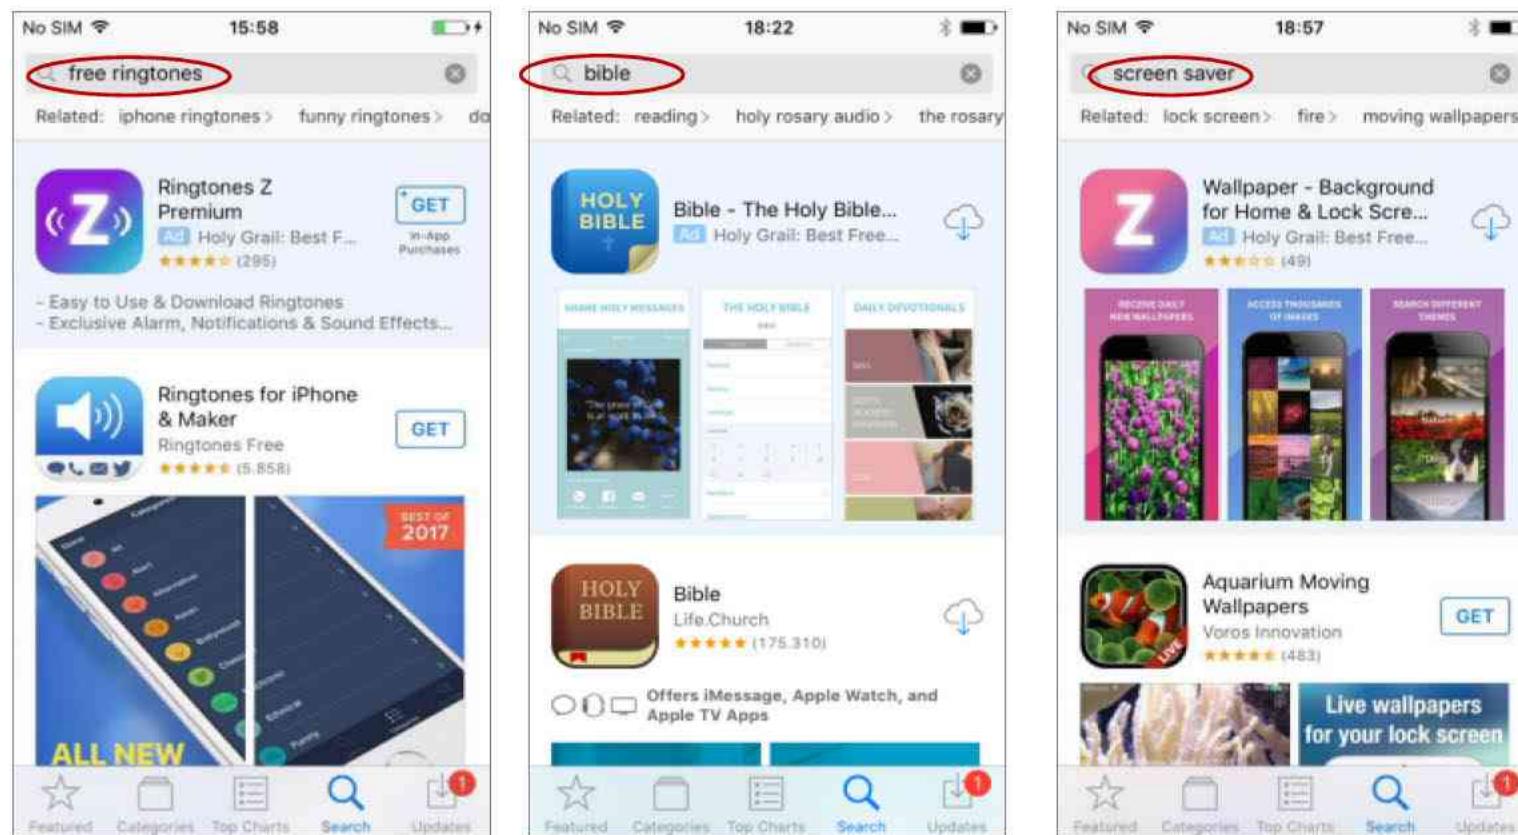

Thousands of free ringtones and functions
Records and converts music to ringtones
If you want an MP3 editor you can pay 3.99/month

Ringtones Z Premium:

Nothing for free
Only 200 ringtones
1 random ringtone per day
Crude copy of Zedge Ringtones

Charges \$40 per month

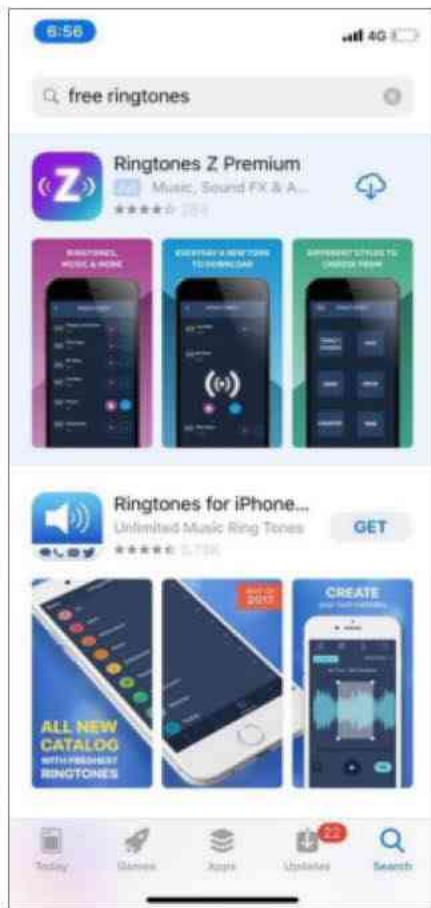

Step 4. Falsely advertise free stuff though Apple Search Ads

No user expects that
searches for
“free ringtones”,
“screen saver” or
“bible”
in the App Store
would lead you to a
\$40/month bill

No one would ever pay for Ringtones Z Premium...

...but if you buy search ads for “free ringtones”, you’ll fool some users out of their money

50% of traffic to Ringtones Z Premium comes from “free ringtones”:

	Top Keywords	Keyword Rank	Results	Traffic Share
1	free ringtones	13 ▲20	1,10B	47.6%
2	-	-	-	-

Ringtones Z Premium total downloads

Total		
iPhone	106 out of 161 days	501,192

If only 1% end up paying
\$40/month for 5 months,
you’re going to make over \$1 million

Step 5. Make thousands of users pay \$100s without knowing

I CANT BELIEVE APPLE LETS AN APP
LITERALLY JUST STEAL YOUR MONEY.
THIS APP AHOULD BE DELETED AND THE
COMPANY SHOULD BE SUED! I deleted the
app and it continued to withdraw money!
There was no unsubscribe button in the
app it's self!

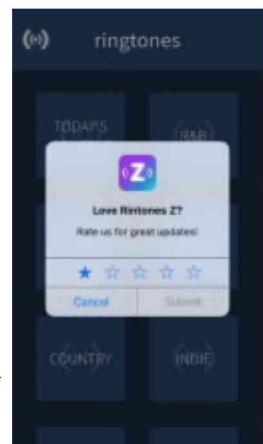

PX-2029.14

Step 6. Scam user ratings so you don't get caught

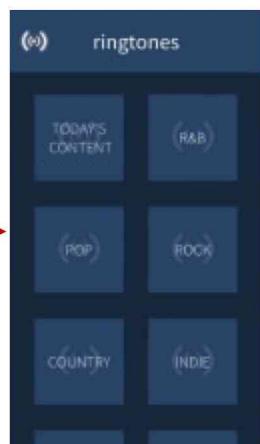

THIS is not Apple's rating popup ("Love Ringtones Z"?)

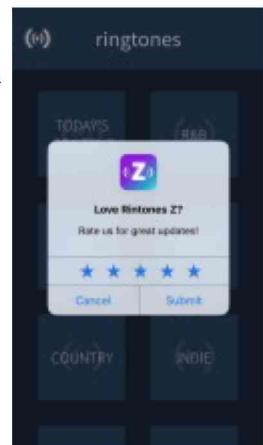

If you give it 1 star...

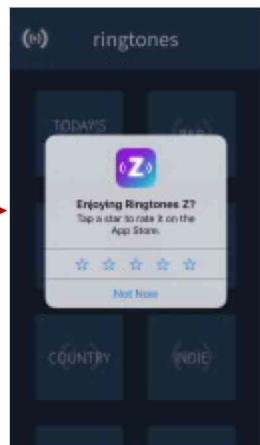

...nothing happens.

If you give it 5 stars...

...the ACTUAL POPUP show up!

This goes strictly against Apple's guidelines

The app only captures positive reviews; negative reviews can only be given through Apple's App Store

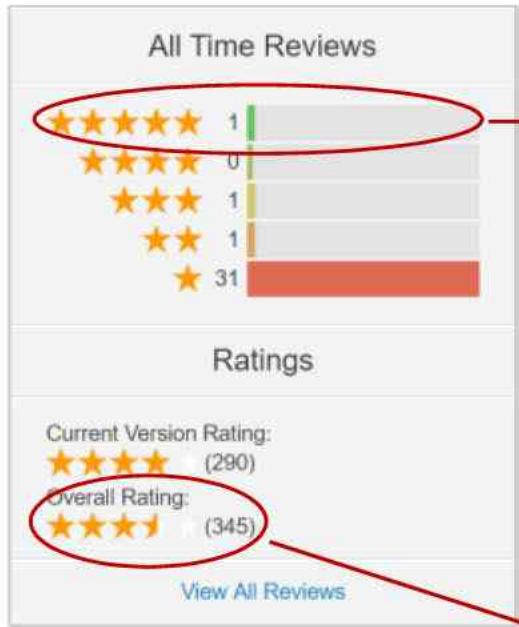

Written reviews' average rating is 1.2 stars

Ringtones Z Premium Reviews from Sensor Tower

The dashboard shows the following data:

- All Time Reviews:** A bar chart with the following distribution:

Rating	Count
5 stars	1
4 stars	0
3 stars	1
2 stars	1
1 star	31
- Ratings:**
 - Current Version Rating: 4.5 stars (290 reviews)
 - Overall Rating: 4.5 stars (345 reviews)

Ratings scam gets the average up to 3.9

The only 5-star written review is from a friend of the developer

The review details:

- Post Date:** Jul 26
- Reviewer:** Vinicius Torres
- Rating:** 5 stars
- Comment:** Found it amazing! Everyday a new ring tone and different styles to personalize my phone! Hats off to the developers!

The screenshot also shows Vinicius Torres's Facebook profile and a list of friends, including Bruno Gomes Onto.

DO NOT DOWNLOAD THIS APP! It will ask you to give permission for a one week trial that you can cancel before you're charged \$7.99 a week. However there is absolutely NO WAY to cancel it! There is no menu in the app and the setting on your phone will not let you do it either. I don't know if it is going to charge my credit card or phone but now I have to watch both so I can dispute the charges immediately! This is ridiculous that the App Store is allowing this app to stay as it is obviously just a scam to get a users money!

Holy Grail: a 2-man operation doing \$500k/month

Google Search for company's name in the Terms of Use ([link](#))

The screenshot shows a Google search result for the company 'Holy Grail Best Free Vr Apps Software 3D Ltda - ME'. The result includes the company's name, address (R Doutor Louis Couty, 35, Apt 51, Jardim Das Bandeiras, São Paulo, SP, CEP 05438-030, Brazil), phone number ((11) 5083-1400), and email (brunog.onto@gmail.com). Below the search result, there is a snippet from the Youse website showing an insurance quote for R \$ 10,000.00 (Ten thousand reais) and a list of directors: Bruno Gomes Onto and Felipe Lopes Rezende.

All you need is 2 people,
3 thousand dollars,
and you can do it from the
comfort of your home!

Holy Grail's HQ is a residential building

Apple has guidelines to forbid this abuse

Holy Grail charges \$240 over 6 months for ringtones that are available for free, cheating users with irrationally high prices:

“And while pricing is up to you, we won’t distribute apps and in-app purchase items that are clear rip-offs. We’ll reject expensive apps that try to cheat users with irrationally high prices.”

Apple Store Review Guidelines, item 3 (Business), 1st paragraph

Holy Grail falsely advertises its apps as free through Apple Search Ads:

“Deceptive Messaging: Ad content should be honest and transparent and must accurately represent the product or service you offer. **False, fraudulent, dishonest or deceptive claims or messaging including misleading titles, statements or illustrations is not allowed**, including the following: get-rich-quick schemes, “free money,” or similar money-making opportunities or offers; free offers and sweepstakes, such as “You have been chosen to win a free...”; **“free items” that require any type of payment**, administrative costs, carrying charges, or other fees, **and hence are not truly free items**”

Apple Search Ads Guidelines, item “Prohibited Content”, item “Deceptive Messaging”

Holy Grail discards every rating that is not 5 stars:

“If we find that you have attempted to **manipulate reviews**, inflate your chart rankings with paid, incentivized, filtered, or fake feedback, or engage with third party services to do so on your behalf, **we will take steps** to preserve the integrity of the App Store, **which may include expelling you from the Developer Program.**”

Apple Store Review Guidelines, item 3 (Business), 2nd paragraph

Apple Search Ads Guidelines: [LINK](#), App Store Review Guidelines: [LINK](#)

Holy Grail clearly has no respect for Apple's guidelines

Holy Grail does not provide ongoing value (1 ringtone a day when competitors offer thousands for free):

"If you offer an auto-renewing subscription, **you must provide ongoing value to the customer**, and the subscription period must last at least seven days and be available across all of the user's devices."

Apple Store Review Guidelines, item 3.1.2(a) (Permissible Uses), 1st paragraph

Holy Grail never says you need to subscribe to use the app:

"Customers should know what they're getting when they download or buy your app, so make sure your app description, screenshots, and previews accurately reflect the app's core experience and remember to keep them up-to-date with new versions"

Apple Store Review Guidelines, item 2.3 (Accurate Metadata)

Holy Grail calls their app Ringtone Z Edge and Wallpaper Edge to capture unwilling fans of Zedge:

"Choose a unique app name, assign keywords that accurately describe your app, and **don't try to pack any of your metadata with trademarked terms, popular app names, or other irrelevant phrases just to game the system.**"

Apple Store Review Guidelines, item 2.3.7

Apple Search Ads Guidelines: [LINK](#), App Store Review Guidelines: [LINK](#)

PX-2029.20

“If you attempt to cheat the system (for example, by trying to trick the review process, steal user data, copy another developer's work, or manipulate ratings) your apps will be removed from the store and you will be expelled from the Developer Program.” ¹

There is no way to search for a ringtone. Instead, there are a bunch of generic tones under various genres.
